

Type	Color Options	Summary Details
<p><b>Shuttle Jr. 15</b></p> 	<p><b><u>Rings</u></b></p>  Green  Blue  Gray	<ul style="list-style-type: none"> <li>• Monsanto proprietary design.</li> <li>• 15 gallon capacity</li> <li>• Monsanto tamper evident 3" one-way valve &amp; tamper evident vent</li> <li>• Gravity flow extraction only</li> </ul>
<p><b>Shuttle Jr. 30</b></p> 	<p><b><u>Rings</u></b></p>  Green  Blue  Gray  Red	<ul style="list-style-type: none"> <li>• Monsanto proprietary design</li> <li>• 30 gallon capacity</li> <li>• Monsanto tamper evident 3" one-way dip-tube valve, 2" tamper evident one-way gravity flow valve, and tamper evident vent</li> </ul>
<p><b>Shuttle 120</b></p> 	<p><b><u>Frame</u></b></p>  Green  Red  Gray	<ul style="list-style-type: none"> <li>• Monsanto proprietary design</li> <li>• 120 gallon capacity</li> <li>• Monsanto tamper evident 3" one-way dip-tube valve, either a 5" tamper evident closure or 3" tamper evident fill valve, and tamper evident vent</li> </ul>
<p><b>Shuttle 150</b></p> 	<p><b><u>Frame</u></b></p>  Green  Red  Gray  Black	<ul style="list-style-type: none"> <li>• Monsanto proprietary design</li> <li>• 150 gallon capacity</li> <li>• Monsanto tamper evident 3" one-way dip-tube valve, either a 5" tamper evident closure or 3" tamper evident fill valve, and tamper evident vent</li> </ul>
<p><b>Shuttle 250</b></p> 	<p><b><u>Pallet Base</u></b></p>  Green  Blue	<ul style="list-style-type: none"> <li>• Monsanto proprietary design</li> <li>• 250 gallon capacity</li> <li>• Monsanto tamper evident 3" one-way dip-tube valve, either a 5" tamper evident closure or 3" tamper evident fill valve, and tamper evident vent .</li> </ul>

Type	Color Options	Summary Details
<p><b>CUBE (original version)</b></p> 	<p><b><u>Bottle</u></b></p> <p> Gray</p> <p><b><u>Frame</u></b></p> <p> Galvanized Steel</p>	<ul style="list-style-type: none"> <li>• 275 gallon capacity.</li> <li>• Tubular frame with protective galvanized steel shell</li> <li>• Lockable one-way valve &amp; tamper evident vent; auto-vent cap</li> <li>• Gravity flow or bottom pump capable</li> </ul>
<p><b>CUBE (Sept 2011 - present)</b></p> 	<p><b><u>Bottle</u></b></p> <p> Gray</p> <p><b><u>Frame</u></b></p> <p> Galvanized Steel</p>	<ul style="list-style-type: none"> <li>• Monsanto proprietary design</li> <li>• Same capacity and features as original version CUBE plus...</li> <li>• More robust pallet</li> <li>• Open corners for adequate light</li> <li>• 25 gallon volumetric markings</li> <li>• One-way check valve</li> </ul>
<p><b>Stainless Steel One-Piece</b></p> 	<p><b><u>Container</u></b></p> <p> Stainless Steel</p>	<ul style="list-style-type: none"> <li>• Cylindrical or square shape</li> <li>• Various sizes</li> <li>• Must be marked with UN/DOT 49 CFR compliant markings of at least DOT Packing Group III performance</li> <li>• May be equipped with bottom discharge</li> <li>• Must have one-way valve, tamper evident device or both</li> <li>• All final fitting configuration must be part of the assembly approved per the UN marking</li> </ul>

**\*\*\*\*\*OTHER MONSANTO-APPROVED CONTAINERS\*\*\*\*\***

Other IBC (Intermediate Bulk Containers) or portable tank designs manufactured with FIFRA-compliant components and tested by the original manufacturer at an approved testing facility may be used by refillers provided the following criteria are met:

- Constructed of LDPE, HDPE, or stainless steel.
- DOT Packing Group III identification/UN markings and tested by the original manufacturer.
- Durably marked with a serial number or other identifying code.
- Each opening must have a one-way valve, a tamper-evident device, or both.
- Container is inspected by refiller, is free of defects, and cleaned in accordance with Monsanto guidelines.
